OBJECTIVE

I am a skilled Frontend Developer with 3+ years of experience in building responsive, user-friendly web interfaces. I specialize in transforming designs into pixel-perfect, high-performance websites using HTML, CSS, JavaScript, React.js, and Tailwind CSS. Passionate about creating seamless digital experiences, I combine creativity and technical expertise to develop modern, efficient, and visually engaging web applications.

TECHNICAL SKILLS

- Web Technologies : React.js | Next.js | JavaScript
- State Management : Redux | Zustand | Context API
- Others : RESTful APIs | Firebase | Axios
- Performance Optimization : Lazy Loading | Code Splitting | SSR | ISR | CSR
- Design Technologies : Tailwind CSS | CSS3 | SASS | Bootstrap
- Programming language : PHP (OOP, basic knowledge).
- Database : MySQL | MongoDB
- Design Tools : Photoshop | Adobe XD | Figma
- Other Tools: Git (using GitHub) | Asana | Jira | Trello

PROJECTS

INVENTORY MANAGEMENT SYSTEM

The Inventory Management System is a scalable web application built with React.js & Redux to streamline product management, stock tracking, order processing, account management, and supplier coordination. It features role-based authentication, real-time analytics, advanced search, and real-time notifications, ensuring efficiency and seamless user experience.

I played a key role in developing the Inventory Management System, contributing 70% to the project.

- Developed the frontend architecture
- Implemented role-based authentication
- Integrated APIs and optimized performance
- Data caching and reduced API calls.
- Integrated Chart.js/Recharts

COMPANY PROFILE WEBSITE [Live Link](#) | [GitHub](#)

Developed a modern, responsive company profile website using React.js, showcasing the company's services, portfolio, team, and contact information. Designed an interactive and visually appealing UI with Bootstrap for a seamless user experience. Integrated APIs and SEO optimization for better performance. Ensured fast loading times with lazy loading, code splitting

I played a key role in developing the Company Profile Website, contributing 100% to the project.

eCOMMERCE WEB APPLICATION [Live Link](#) | [GitHub](#)

Developed a scalable eCommerce platform using React.js & Next.js with multi-role access (Admin, Manager, Dealer, Customer). The system includes product management, order processing, stock tracking, returns, refunds, and a POS system for dealers. Integrated secure authentication, real-time updates, ensuring efficiency and seamless user experience.

I played a key role in developing the eCommerce Web Application, contributing 60% to the project.

- Developed the frontend architecture
- Implemented role-based authentication
- Optimized API handling & CRUD operations
- Data caching and reduced API calls.
- Integrated Chart.js/Recharts

COURIER MANAGEMENT SYSTEM

Designed a responsive and user-friendly Courier Management System using HTML, CSS, Bootstrap, and JavaScript to streamline parcel booking, tracking, and delivery management. Created an intuitive UI for easy navigation. Optimized performance with CSS animations, JavaScript validations, and responsive design techniques, ensuring compatibility across all devices.

I played a key role in developing the Courier Management System, contributing 100% to the project.

PROFESSIONAL EXPERIENCE

FRONTEND WEB DEVELOPER

Steadfast Courier Limited
06/2022 - Present

Experienced **Frontend Web Developer** specializing in **React.js** and **Next.js**, with a strong focus on building **scalable, high-performance web applications**. Skilled in **creating reusable components, optimizing performance, and integrating RESTful APIs** to enhance user experience. Passionate about delivering **responsive, interactive, and visually appealing UI** while collaborating with designers and backend developers for seamless functionality.

- Developed a **dynamic, high-performance applications** using **React.js, Next.js ,Redux and Context API** .
- Built **reusable and modular components** to improve development efficiency.
- Optimized **application performance, load times, through lazy loading, code splitting.**
- Integrated **RESTful APIs** for efficient **data fetching**
- Worked closely with **UI/UX designers** to translate designs into , **pixel-perfect web interfaces.**
- Managed **code repositories (Git, GitHub, GitLab)**
- Implemented **data caching** to reduce API calls

SOFT SKILLS

- **Problem-Solving** – Ability to debug issues and find efficient solutions.
- **Communication Skills** – Collaborating effectively with designers, backend developers, and stakeholders.
- **Time Management** – Meeting deadlines and managing multiple projects efficiently.

REFERENCE

Md Shoriful Islam

Assistant Director Software Engineer, Sonargaon University
Cell: +8801955544930

WEB DESIGNER

Uddoktagiri
01/03/2021 –30/05/2022

Creative and detail-oriented **Web Designer** with expertise in **HTML, CSS, Bootstrap, and JavaScript**, focused on designing **responsive, visually appealing, and user-friendly websites**. Skilled in translating **UI/UX wireframes** into functional designs, ensuring **seamless user experiences** across all devices.

- Designed **modern, responsive, and interactive websites** using **HTML, CSS, and Bootstrap.**
- Developed **pixel-perfect, user-friendly interfaces** based on **UI/UX wireframes.**
- Ensured **cross-browser compatibility** and **mobile-first design** for optimal performance.
- Created **engaging animations and transitions** using **CSS and JavaScript.**
- Optimized **website performance** by reducing load times and improving responsiveness.
- Collaborated with **developers and designers** to bring creative ideas to life
- Managed design projects using **Figma, Adobe XD, or Sketch** for wireframing and prototyping.

- **Adaptability** – Quickly learning new technologies and frameworks.
- **Critical Thinking** – Making informed decisions for performance and scalability.
- **Self-Motivation** – Staying updated with the latest industry trends and best practices.
